MBA (Gold Medallist)

OBJECTIVE

Peace Economy© is a niche global initiative termed as '*Economy of the Future*'. *Peace Led Sustainable, Co-development, Co-existence, Toleration and Economic Non-violence* plays a significant role towards accelerating, enhancing, implementing and achieving a '*Peace Economic Regeneration*'.

Peace Economy® can act as a benchmark and infuse an essence of mutualism and cohesion into a new life and stand in aligning with the neighbouring countries with extending support across the global economic communities ensuring them of '*Regenerative Peace and Economy*' for the successful achievement of 'Peace Led Economic Co-development & Co-existence' in midst of '*New World Economic Order*'.

Peace Economy© through its strategic and long distant vision with a core objective of fostering '*Economic Fraternity and Economic Non-violence*' along with human centric approach considering '*common good*' relating to the improvement of a place, people, planet or ecosystem, especially by making it more *active, positive and regenerative*, after it has been inactive, damaged or destructed through excessive weaponization, conflicts, trade wars, and global negativity.

Peace Economy®, surpassing sustainability, moving forward while truly and purely embracing '*Regenerative Co-Development and Growth*' which actually means an '*integrated development*' or '*holistic approach*' shall regenerate peace led economic ecosystem but also actively improve social, financial and ecological well-being. It goes beyond the sustainability by focusing on restoring / revitalising optimal resources and social structures, rather than just vested interest resulting **war**.

PEACE ECONOMIC REGENERATION

REGENERATIVE PEACE

Regenerative Peace is a holistic concept. At its core, it involves and co-evolves peace-building that doesn't just restore the status quo, but actively regenerates and nurtures systems—social, economic, environmental—that promote long-term harmony, justice, and sustainability. The idea of Peace Economic Regeneration provides balm, recovery, renewal, and growth, extending beyond conflicts, jeopardise infrastructure, broken communications or resolution or ceasefires.

Regenerative Peace can bring restorative socio-economic justice practices, whereas human beings overcome out of irrecoverable losses after conflict but are given opportunities to peacefully transform and co-evolve through collaborative, inclusive and collective processes. It strengthens in rebuilding trust, redistributing resources more equitably, addressing future life plans, and ensuring that the available ecosystems in right place and manner which prevent future longevity.

REGENERATIVE ECONOMY

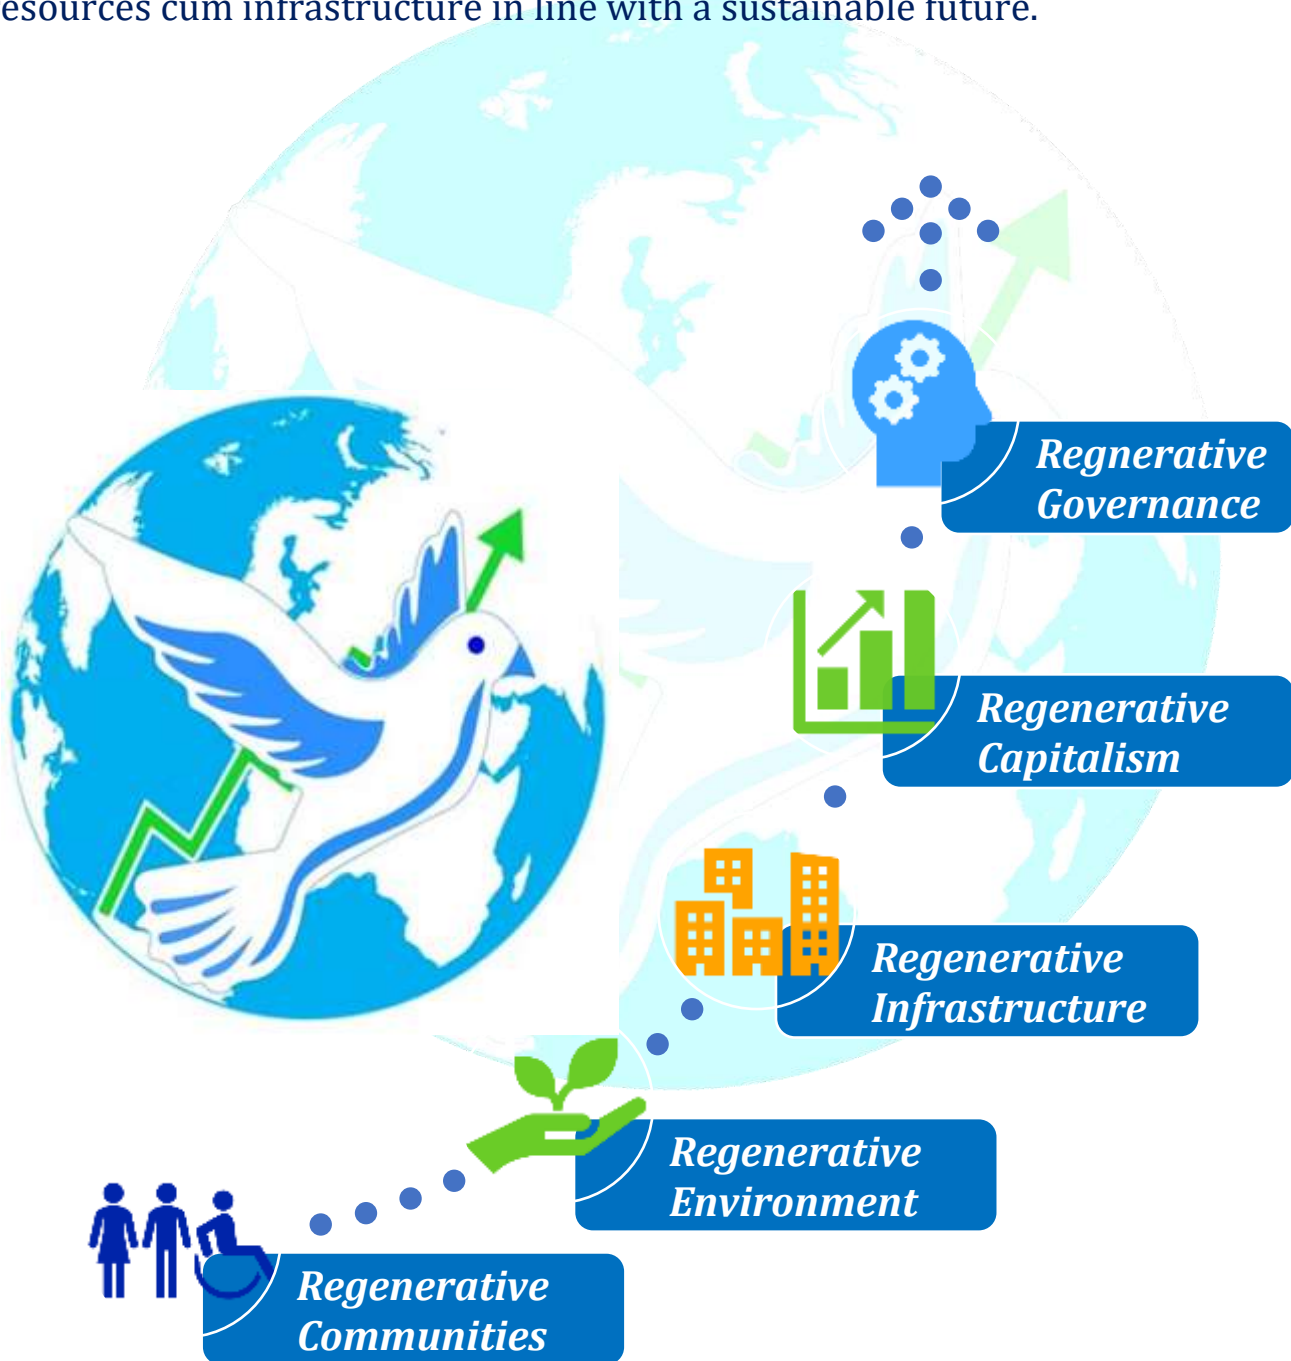

Regenerative Economy means, the reinvigoration of indigenous, regional and inter-regional economies and associated improvements in national cum international positive economic competitiveness and economic prosperity.

It also brings **Regenerative Finance / Blended Finance**, which utilising a mix of public finance, private finance, and philanthropic finance to support and promote regenerative projects. Apart from only minting surplus or vested, it brings a sense of realisation towards '*Collective Sustainable Responsibilities*' (CSR) rather make more responsible and bring onus towards the overall communities for common and civic development which make society economically empowered & cultured.

REGENERATIVE IMPACT

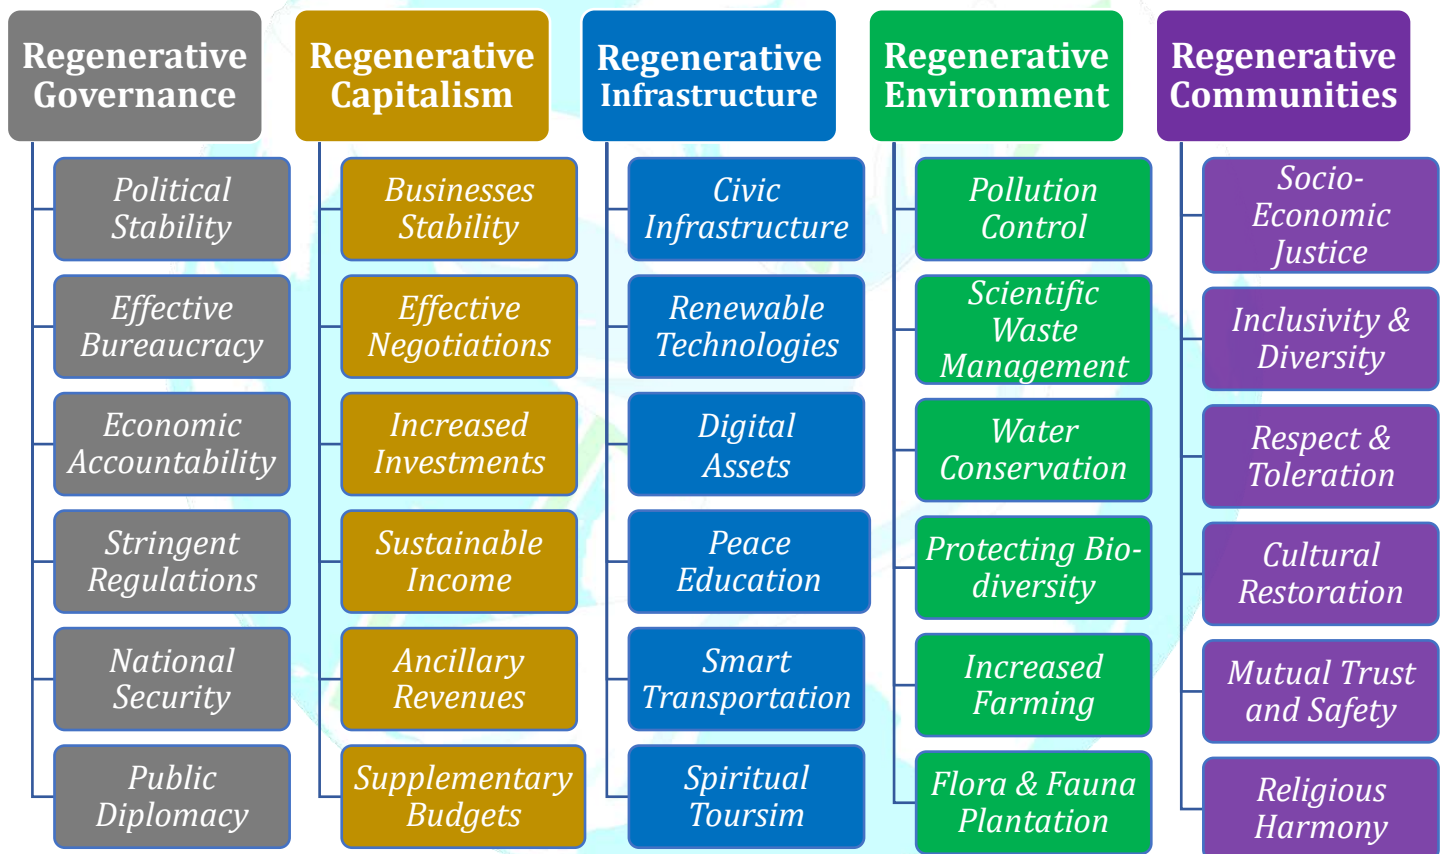

'Peace Economy Regeneration' is an effective way to revitalise global communities, fuel economic growth, and bring our existing as well as new resources cum infrastructure in line with a sustainable future.

MATTER OF COURSE

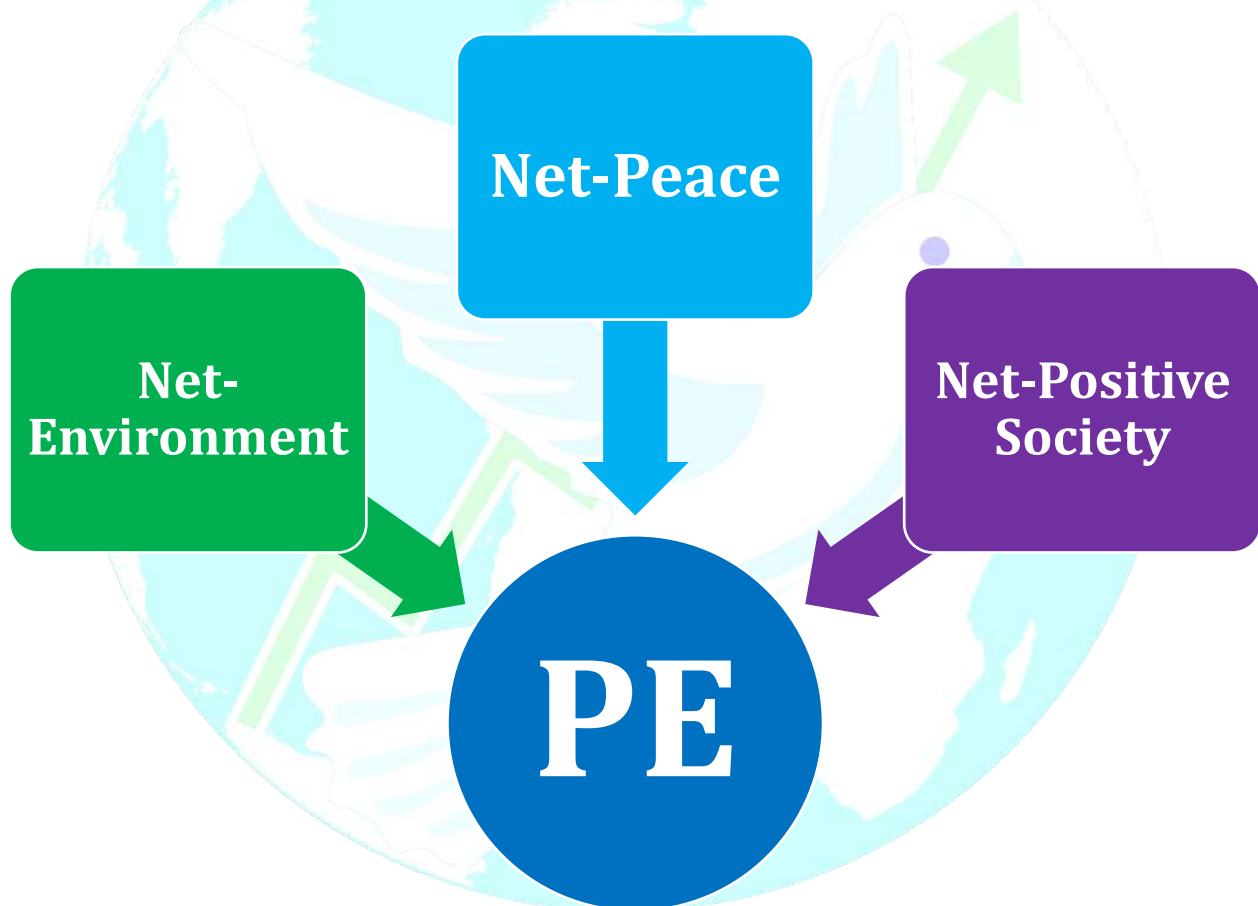

The **PE Regenerative Development** valued approach is in its potential to regenerate human capital both health and wealth and deliver positive outcomes towards universal humanity with focusing on common good i.e., live and let live.

EPILOGUE

In essence, *Peace Economic Regeneration or Peace Led Regenerative Co-Development and Growth* envisions a persuasive, proactive and positive approach surpassing sustainability, rather establishing '**Net-Peace**' by actively working to reciprocity and restore within interconnected ecosystem for a life advancement.

Peace Economic Regenerative Co-Development practices provides an integrated, positive and competitive ecosystem whereas human being transforms out of previous wounds, tragedies, losses, deadly sins and harmful events. People could exercise their fundamental rights such as **Right to Breathe, Eat, and Live**.
